Temp-Block White is a temporary opaque window film providing 24-hour privacy in both directions with a low-tack adhesive for easy removal afterwards.

An ideal solution for the short-term screening of construction type works from public view.

### **Important Information**

Internal application only.

We do not recommend the use of internally installed solar reflective film on Georgian Wired glass or double glazed units if they are Laminated glass due to the increased risk of thermal fracture.

**Please Note: the above is given in good faith to provide an indication of the performance of the product. Purchasers should consider the suitability of each product for its intended use, and the purchaser assumes all risks in connection with such use.**
